PROJECT EXPERIENCE

Google Developer Groups - UCSC, Core member

Sep 2024 - Sep 2025

- Participated as a volunteer and active member in the UCSC chapter of Google Developer Student Clubs.
- Assisted in organising and facilitating workshops, speaker events, and hackathons focused on modern developer tools, machine learning, and app development. Contributed to project collaborations using tools like TensorFlow, Firebase, and Google Cloud.

Covid-19 Vaccination Availability Crawler

- Designed and developed a web crawler to scrape COVID-19 vaccination appointment availability over CVS and Walgreens websites using **Python BeautifulSoup4** and stored data as **JSON** files. Deployed the crawler as a Linux **cron job**.
- Built a web server based on Python **Flask** to serve static web pages visualising the data.
- Created unit tests using **PyTest** and configured continuous runs to serve as health checks.

Founder/Creator of Korean Student Association (KSA)

- ~10 hours/during school week, 10-20 regular student & teacher attendance per session.
- ShenWai International School's first cultural& educational organisation
- Wednesdays and Fridays Every week
- Creator of the education curriculum of KSA at SWIS, allowing pre-IB students to learn IB Korean before they enter IB and teach the Korean Language and Culture.
- Hosted the very first "International Day", an event to celebrate the international community's differences.

School Ambassador, ShenWai International School

- Working 7hrs/week for Summer
- Serve as a student ambassador at ShenWai International school under the supervision of the school.
- Leader of school ambassador in grade 11 and 12
- Guided over 500 new incoming students with 2 more group mates over 2021-2023, G6-G11
- Serve as a role model and resource to incoming students while organising high-quality programming from conception to implementation.
- Sharing campus knowledge and experience as current students to assist mentees with successfully navigating academics, campus life, and resources.
